

Arctic Climate Change Emerging Leaders (ACCEL) Program

Atlantic Council

- 
- A blurred background image of an Arctic landscape. In the foreground, a polar bear is partially visible, swimming or walking in the water. Several birds, likely gulls or terns, are flying in the sky above the bear. The overall scene is hazy and captures a natural, cold environment.
1. **Raising awareness about Arctic issues** amongst young people around the world
 2. **Involving indigenous population** and other crucial stakeholders in the broader Arctic discourse
 3. **Engaging young people** in the Arctic as well as lower latitudes in a dialogue about the futures

Our idea for our fourth video is to share some information about life in the region, but the most interesting part of the video will be short vignettes from YOU!

Using a webcam, phone camera or a camera, we want 30 second to 1 minute clips:

1. Introduce yourself!
2. Where do you live or where are you from?
3. Answer any of the following questions:
 - What is the most important Arctic issue to them?
 - Why is the region so special?
 - What would you tell someone who has never visited the Arctic?
 - What do you hope to see in the future?

Thank you!
